

## PRODUCT SPOTLIGHT

### Learning Wall from Fleetwood Group Furniture

Fleetwood's Learning Walls allow schools to install modular casework instead of built in casework. This keeps the classroom flexible for the future when changes in curriculum or space needs dictate. Different modules can be substituted in another year if desired. Learning Walls can be easily removed from a classroom by facilities staff for summer cleaning, or when a leak causes room damage, then reassembled after cleaning or repairs are complete. Standard configurations will meet the needs of most classroom environments. We welcome customization when a school district wishes to create a unique configuration in either form or function.

### Mobile Furniture

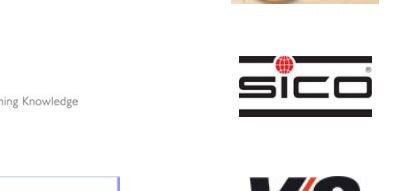

Whether it's extra drawer space in an elementary classroom or storage for science experiments or art projects, or teacher cabinets that move from room to room throughout the day, Fleetwood has the answer to your mobile storage needs

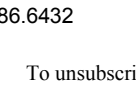

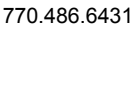

Uniform Storage w/Shelves

Instrument Cabinet with or without doors
